

K-LOVE Radio is a a national and regional broadcaster with a local FM translator in my city. It has brought not only great music but great personal ministry to me that a low frequency station, in part because of its size, would not be able to provide. In addition, K-LOVE provides an unique avenue of ministry, not only good music, that would be absent were such a station taken from our area. The ministry KLOVE provides is strengthening individuals and families daily in our area. Please do not do something that would take KLOVE away.
